SMU Alumni Association & OCBC Group

Dear Sir / Madam,

Letter of Appreciation for the SMUAA-OCBC Scholarship

Both my family and I are indeed grateful for this scholarship. With my mother being the sole breadwinner for a family of three, this scholarship definitely alleviates our financial difficulty. At the same time, it allows me to continue leading a fulfilling student's life.

I am currently a final year student at SMU, pursuing a double degree in Bachelor of Accountancy and Bachelor of Business Administration (Finance). Inevitable as a final year student, I am looking back with fond memories about those times when I studied hard, juggled several CCAs, competitions and other commitments concurrently.

I am glad that I have taken on several leadership roles and made significant contribution to the SMU Accounting Society, the SMU Frisbee community and other individuals through various events which I have participated and organized. Such events include helping the needy children during an overseas community service project at Cambodia and organizing the Accounting Freshmen camp.

As I watched the next generation of leaders taking charge of these events, I questioned myself on the kind of student's life I wished to have in my final year. It is definitely not my intention to fade off and "retire" from school. I have decided to complete the final piece of my student's life by going on an international exchange program, a program which will further strengthen my personal development. My exchange program is only made possible with this scholarship. I am appreciative of this opportunity and will definitely uphold the image of a SMU scholar.

Rewarding, exciting and colorful are some of the key words I hope to associate with my SMU life when I graduate. With one more year left, I am going to ensure that my student's life will stay equally meaningful. SMU has provided the opportunities for students to shine but obtaining this scholarship allows me to grab these opportunities. I am thankful for this award and I will always look out for ways to contribute back to the society in future. Thank you.

Yours Faithfully,

NG Wei Jie
